### **NOTICE OF A DRAFT CONSTRUCTION PERMIT**

**BORAL BRICKS, INC.**  
**7472 VAN WYCK ROAD**  
**VAN WYCK, SOUTH CAROLINA**  
**(LANCASTER COUNTY – REGION 3 LANCASTER EQC OFFICE)**  
**AIR PERMIT NO. 1460-0002-CF**

Boral Bricks, Inc. (Boral Bricks) has applied to the SC DHEC for a construction permit to establish federally enforceable operating limits at its existing brick manufacturing facility. A draft construction permit and engineering calculation sheets have been written by the BAQ outlining this proposal and applicable regulations. If approved, this permit will enable the facility to operate in compliance with State and Federal Air Quality Regulations. The draft permit has not yet been approved and is open to comment from the public and the United States Environmental Protection Agency (EPA).

Operations at Boral Bricks consist of raw material processing, grinding & screening, brick making, and two (2) natural gas/propane fired brick kilns with associated brick dryers. Emissions generated by this facility include Particulate Matter (PM)/PM less than 10 Microns in Diameter, Sulfur Dioxide, Nitrogen Oxides, Carbon Monoxide, Lead, and Hazardous Air Pollutants. Boral Bricks is requesting that DHEC establish federally enforceable operating limits of less than 10 tons per hour of fired brick in the Plant C Tunnel Kiln, thereby enabling the facility to remain below applicable Maximum Available Control Technology Standards as defined by Title 40 of the Code of Federal Regulations, Part 63, "National Emission Standards for Hazardous Air Pollutants for Source Categories." If approved, there will be no new construction, physical modifications, or emission increases from sources at the facility as a result of this proposal.

DHEC issued a Title V Operating (TV) Permit to this facility on July 5, 2001. DHEC has identified the incorporation of the terms and conditions of the draft construction permit into the existing TV permit as a minor modification in accordance with SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." Therefore, if approved, the issued construction permit will be incorporated into the TV permit with no additional public comment period. All emissions limitations and conditions contained in the draft construction permit have been written in accordance with the SC Title V Operating Permit Program.

Interested persons may review the materials drafted and maintained by DHEC for this facility and submit written comments on the draft permit by May 13, 2006 to Mr. Brett M. Caswell at the above DHEC address. All comments received by May 13, 2006 will be considered when making a final decision regarding the draft permit. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional comments. Public hearing requests should be made in writing to Ms. Donna Moye at the above DHEC address or by e-mail at: [moyedd@dhec.sc.gov](mailto:moyedd@dhec.sc.gov). If a public hearing is requested and held, notice will be given in this publication thirty (30) days in advance. A request for a contested case hearing may be filed after a final decision has been made. Contested case information is available from the Office of General Counsel at the above DHEC address or by calling (803) 898-3350. Information relative to the draft permit will be available for review through May 13, 2006 at the DHEC Columbia Office listed above and at the following location:
